

DeNova – Complete Product & Business Report

Founder: Sanjith Reddy

1. Executive Summary

DeNova is a Smart Restaurant Experience Platform designed to go beyond traditional QR-code menus.

Instead of simply displaying a digital menu, DeNova connects customers, restaurant owners, and kitchen staff

through a unified platform that improves customer experience, operational efficiency, and business growth.

2. Vision

To become the operating system for modern restaurants by combining premium customer experiences,

AI-powered insights, restaurant management tools, and future-ready technologies such as AR and loyalty networks.

3. Problem Statement

Existing QR menus are often static, provide little value beyond replacing paper menus, lack analytics,

customer engagement, real-time synchronization, and meaningful business intelligence.

4. Solution

DeNova replaces static QR menus with a complete smart restaurant ecosystem featuring interactive ordering,

kitchen management, analytics, customer engagement, and AI-assisted business tools.

5. Core Customer Features

- Interactive premium menu
- Search and smart filters
- Veg / Non-Veg / Allergen / Spice filters
- High-quality images
- AR dish preview (roadmap)
- Shared group ordering
- One-tap waiter call
- Live order tracking
- Real-time sold-out synchronization
- Time & weather-based recommendations
- Favorites, reviews, and ratings

6. Owner Dashboard

- Menu management
- Sales analytics
- Customer analytics
- AI menu description generator

- Menu engineering insights
- Weekly WhatsApp reports
- Business intelligence dashboard

7. Kitchen Dashboard

- Live order queue
- Color-coded tickets
- Preparation timers
- Ready notifications
- Sold-out updates
- Kitchen analytics
- Voice status updates (future)

8. Future Roadmap

Phase 1: QR Ordering, Kitchen Dashboard, Owner Dashboard

Phase 2: AR Preview, AI Recommendations, Analytics

Phase 3: Cross-cafe Loyalty, Ghost Customer Recovery, Local Discovery

Phase 4: Dynamic Pricing, Revenue Sharing, Fintech Services

9. Competitive Advantage

Traditional QR menus digitize paper menus.

DeNova digitizes the complete restaurant experience through AI, analytics, premium UX, customer retention, and operational intelligence.

10. Services Offered

- Smart QR Ordering System
- Restaurant Website & Branding
- Kitchen Display System
- Owner Dashboard
- Customer Loyalty Programs
- AI Business Tools
- Restaurant Analytics
- AR Experience (Roadmap)

11. Business Model

- Monthly SaaS subscription
- Optional one-time setup
- Enterprise customization
- Future revenue-sharing option

12. Target Customers

- Cafés

- Restaurants
- Cloud Kitchens
- Fine Dining
- Food Courts
- Multi-branch restaurant chains

13. Mission

Help restaurants deliver exceptional customer experiences while using technology to increase efficiency, customer loyalty, and long-term profitability.

14. Conclusion

DeNova is positioned as a Smart Restaurant Experience Platform rather than just another QR menu.

Its long-term goal is to become the digital operating system that powers modern restaurants.
